

Review Board 2.23 „Neurosciences“

2024 – 2028 Membership Period

Internal Section 2 of Review Board 2.23

The internal section 2 of Review Board 2.23 evaluates proposals from all subjects covered by the review board. Due to the size of the review board and the large number of proposals, Review Board 2.23 cannot evaluate all proposals in its plenary session. The majority of individual proposals are therefore assessed at meetings of Sections 1 and 2. These are interdisciplinary sections, i.e. the sections are staffed in such a way that expertise from all review board subjects is represented in each section. Members of the other section may also be called upon if required by the subject-specific orientation of the proposal.

Section spokesperson: **Prof. Dr. Dr. Ghazaleh Tabatabai, Tübingen**
 Deputy spokesperson: **Prof. Dr. Matthias Endres, Berlin**
